```
1  const Button = ({ buttonText, reqType, setReqType }) => {
2      return (
3          <button
4              className={buttonText === reqType ? "selected" : null}
5              type="button"
6              onClick={() => setReqType(buttonText)}
7          >
8              {buttonText}
9          </button>
10     )
11 }
12
13 export default Button
```
